Ayer's Hair Vigor keeps the hair soft and pliant, imparts to it the lustre and freshness of youth, causes it to grow luxurisatly, eradicates Dandruff, cures all scalp diseases, and is the most cleanly

AVER'S Hair Vigor has given me searly bald for six years, during which time I used many hair preparations, but without success. Indeed, what little hair I had, was growing thinner, until I tried Ayer's Hair Vigor. I used two bottles of the Vigor, and my head is now well covered with a new growth of hair.

—It is the custom on many farms to throw more corn to the hogs than they will eat up clean. This is a mistake, for only so much as they will eat with a good relish should be given. A good appetite is essential, for without this the hog will not eat sufficient tood to lay on fat readily. Do not depend on corn alone, but give a variety of food, for by this means the system will be kept in better condition, and the hogs will cat more and thrive better. - Springfield (O ) Times.

#### NEW CONSUMPTIVE CURE.

its Methods and Results Described by a Medical Periodical. A large share of professional and public attention has quite recently

been directed to the administration of gaseous enemats for the treatment of blood poisoning and of affections of the respiratory passages. The object in view is to supply to the venous circulation an antiseptic, such as hydrogen sulphide, in sufficient doses to be effective-a result impossible when supplied directly to the arterial current, a plan which would poison the patient Hydrogen sulphide in far less than suflicient doses would suffocate the patient; taken by the stomach, it would produce other serious results. Administered by the bowels, however, and entering the venous current already deteriorated by organic refuse, it is quickly eliminated by the respiratory tract, which thus becomes subjected to its beneficial local antiseptic effects without subjecting the system at large to injury, as when thrown into the arterial current. In other words, the parasite is killed, without killing the individual. Its beneficial effects Ormanden ladies suffering from any form of phthisis are explained by the action of the gas on the suppurative and septic

surfaces, and not by any influence on the bacillus tuberculosis; the consumpthe suppuration and to the conse quent septicemia, and not imme diately to the bacillus, which while it produces the destruction

of tissue, does not produce the morbid phenomens. The method of administration utilizes the disovery announced by Bernard in 1857. that toxic materials introduced into the economy through an orgin at a distance from the arterial system could not penetrate into the arterial system beginse it is eliminated before that system can be reached. Volatile substances are climinated by the pulmon-

nry alveoli.

July 12, 1886, Dr. Bergeon con municated to the French Academy of Sciences the results of several years' investigation into the method, and Prof. Corml also presented a later paper on the subject

Various antiseptic gases and vapors have been tried, but abandoned on account of local itrituat action, but a mixture of carbon dioxide (carbonic acid gas) and hydrogen sulphide (sulpheretted hydrogen) is entirely humless when properly fised and completely deprived of atmospheric air. The method has up to the present been used upon about one hundred cases in this city without any untoward effects. so far as known, except in one or two instances, one of which was due to a leaky bag and another to incorrect administration. It is, perhaps, too soon to decide positively on the therapeutic value of the new method, but it seems in the experience in this city to have the special quality of diminish ing hight sweats and improving the

appetite.
In Bergeon's cases the triffing ex pectorations of those apparently practically cured continued to contain bacilli. This fact may be taken both for an indication that the immediate danger in phthisis is less from the baccilli than from the septicæmia which they set up, and as an indication that this protective treatment, when successful, should not be discontinued until the general healthiness of the tissues is sufficiently restored to resist the further development and susteance of the bacillus tuberculosis.—

The Verdict Unanimous.

W. D. Sult, Druggiet, Bippus, Ind., testifies: "I can recommend Electric Bitters as the very best remedy. Every bottle sold has given relief in every case. One man took six bottles, and was cared. of Rhenmatism of 10 years' standing."

Abraham Hare, druggist, Belleville, Ohio Abraham Hare, druggist, Belleville, Ohio, affirms: "The best selling medicing I have ever handled in my 20 years' experience is Electric Bitters." Thousands of others have added their testimony, so that the verdict is unanimous that Electric Bitters do cure all diseases of the first, kidneys or blood. Only half a dollar a bottle at John A. FOREIGN NEWS. Significant Meeting Between Lord Salisbury and German and Austria Ambassadors.

The Probable Object of the Conference to Piace a Check Upon Russian Territorial Aggrandizement.

Senous Condition of Prince Bismarck -- The French Treaty With Abyssinia --Russia's Opposition, Etc.

England. AN IMPORTANT CONFERENCE LOXDON, June 15 -The Austrian and terman ambassadors chilled upon Lord Salisbury at the Foreign Cape yesterday afternoon and the three were closeted to there for some time The purpose or result of the manufacture. result of the interview has not been definitely made public, but the meeting is believed to portend the cohesion of Germany and Austria with England in opposing the aggressions of Russia on the frontier of Afghanistan, and En-gland's joint action with Austria, in re-straining of the artist and the artistic of resided intention of occupying Bulgaria. The repeated warnings of the English press during the last few days have not seen necessary to apprise Lord Salisbury of the fact that both the Bulguman and Afghan questions have assumed phases rendering their immediate settlement by arbitration, force of aims or an alliance sufficiently strong to induce Russia to substitute discretion for territorial ambition absolutely imperative The position of Russia on the Afghan frontier, after two

years of careful quiet and unrestricted preparation, is much stronger than that of England in any part of the Ameen's unthems dominions, and the first stages of actual war could not fall to result disastrously to English arms, and firmly establish Rus ila in possession of the most strongly fortified positions in Afghamstan It will therefore, be seen that an alliance of the estate of the Amee in advance of the latter's demise is of great importance to England, at least until she can get ready to contest Russin's claims individually with equal chances of success Or the other hand, the appointment of a pro Russian ministry in Servia has deprived Austria of any hope of King Milan's assistance in checking Russia's pretensions in the Balkans and made England's assistance on the eve of the election of a Prince of Buigaria, to

whose accession to the throne Russia will undoubtedly object, doubly welcome As for Germany's share in the benefits of the alliance, she has everything to gain and nothing to lose. By passively interfering to prevent Russia from pre-cipitating war in Afghanistan, and lend ing her influence to a bloodless settle ment of the Bulgarian question, she acquires two active alies in suppressing the warlike chulitions of France until the arrival of the time when it shall seem advantageous to provoke or derials war against her implacable enemy

The feature of the elaborate prepara tions for the Queen's | ubilee is the airival of the Crown Prince Frederick William of Prussis, who overshadows a l of the other royal visitors in importance and interest. The conflicting reports in pass an not levil z g legislation enacted there if thering the annual meeting will be held in Indianapoles next year to the granty of his mainty have added greatly to public contern in his movements and vastly increased his popularity, and next to the Queen heiself he will unquestionably be the most conspicnous figure of the celeb ation. "SELLS" DAY" ALMOST HERE!

June 21st will Signalize the Advent

of the Greatest on Earth.

Just now the chief topic of conversa-

tion at the hotels, clubs, restaurants, and

other places where people congregate, is

the approaching visit of Sells' Brothers'

widely renowned and justly popular tent-

ed combination, which appears here in

all its summer beauty, Tuesday, June

21st. As the day of the exhibition draws

near, interest in the event increases at a

remarkable rate. It would seem that the

entire community had the circus fever,

entire community had the circus lever, and badly, too. Well, it is not strange that our people should enthuse over the Mesers. Sells' aggregation, as it is a strangendous and unparalleled affair, and creates a blaze of excitement wherever it appears. From all indications there will be the largest crowd in the circ on the

day of Sells Dromers visit here, that has ever been known in the history of the town. The Sells Brothers have been playing to the capacity of their tents everywhere. No such complete and growths assemble when the several tenths are successful as the second of the seco

gantic success ever attended a cream four before. Our exchanges teem with edito-rials extelling the magnificent worth of

the show, and scarcely a day passes but that some gentleman who has already seen the establishment this senson grows

eloquent in describing to us the superlative excellence of the Mesors, Sells bea-

tures. The show embraces a wider range

of attractions than any tented management has heretofore possessed. There is a \$200,000 menagerie of fi.ty cages, an

Indust village and museum, an ethnological congress of barbarons tribes, a grand

tiremen's tournament, a sumptuous and

remen s tournament, a manpen or the Roman https: rome, Pawnee Bill's historical "Wild

West," including a vivid reproduction of Custer's memorable battle with the Sioux Indians on the Little Big Horn, and a

monster circus performance, in which three hundred of the world's greatest

arenic stars disport themselves in three rings and on a huge theatre stage. Sells Brothers will receive an ovation here.

fore the Supreme Court at Springfield vesterday by Crea & Ewing, the People being represented by E. P. Vail. The defendant, who was given a year at Joliet for forgery, had his motion for a new trial overruled at the January term by Judge Smith. In his application to the Supreme Court he asks that the verdict of guilty be set ande and that he be given a new trial. The decision of the court will not be rendered for several weeks. The defendants in their brief make a strong argument against the affirmation of Judge Smith's decision. The principal witness at the trial testified that Aholtz had no anthority to sign George Stare's name to official bonds. On the motion for a new trial an affidavit was presented setting forth that after the trial the principal witness had said to affiant that he might not have testified that Aholtz had no authority to sign the bonds in question if a certain witness had not testified so strongly. The friends of Aholtz believe that he should have new trial.

The Mid-Day Fire.

Shortly before 12 o'clock to-day a small frame dwelling bouse in "Africa," west of James Hollinger's residence, caught fire in some unknown manner and was destroyed. It was occupied by Mrs. Martha Evans and her two children, and was the property of Mrs. Ann White, mother of Mrs. John Bird. The total loss is about \$100; no insurance. The hose team arrived at the scene first, and did effective work in putting out the fire and saving adjacent property. The Chemical met with an accident while coming out of the fire house, emused by the breakage of a singletree, but it got to the fire after a brief delay.

Base Ball Chat.

George R. Brett, manager of the base all club, has been granted leave of absence to go to Amsterdam, N. Y., to train team for a hose coupling contest. He will do the coupling. George left for the east to-day.

Douthett will probably arrive from Nebraska in time to play second base in Friday's game.

Fred Mueller, assistant manager, will have charge of the chib in the absence of Manager Brett. The Linn & Sernggs ball nines had an-

other healthful exercise at the park last

evening. In two innings the score was 24 to 8 in favor of the Boyd side. All of the players had late suppers. The Danville Platts will arrive to-morrow morning and give Decatur two games

at the park -Thursday and Friday after-The Champaign Chippers defeated the

Reds at Bloomington yesterday at the opening of the new park. Score, 7 to 5. Three car loads of Champaign people vitnessed the game.

The Jolly 4th.

At the acjourned meeting at the court house last night, held for the purpose of arranging for the July 4th celebration, Wm. J. Wayne was chosen chairman, and Will Snyder secretary. It was voted

that committees be appointed by the chairman to arrange for an industrial parade and to prepare for the great day. Another meeting will be held Friday night at the court house. Sudden Death.
